April 29, 2015

Increases 2015 FFO per share Guidance Range

SANTA MONICA, Calif., April 29, 2015 /PRNewswire/ -- The Macerich Company (NYSE Symbol: MAC) today announced results of operations for the quarter ended March 31, 2015, which included funds from operations ("FFO") diluted of \$133.5 million or \$.79 per share-diluted compared to \$121.6 million or \$.81 per share-diluted for the quarter ended March 31, 2014. Included in the 2015 first quarter results is a gain on early extinguishment of debt of \$2.2 million or \$.01 per share-diluted and \$13.6 million or \$.08 per share-diluted of expenses related to an unsolicited takeover attempt. Net income attributable to the Company was \$24.6 million or \$.15 per share-diluted for the quarter ended March 31, 2015 compared to net income attributable to the Company for the quarter ended March 31, 2014 of \$17.8 million or \$.13 per share-diluted. A description and reconciliation of FFO per share-diluted to EPS-diluted is included in the financial tables accompanying this press release.

Recent Highlights:

- Mall tenant annual sales per square foot for the portfolio increased 7.4% for the year ended March 31, 2015 to \$607 compared to \$565 for the year ended March 31, 2014. On a same center basis, annual sales per square foot increased to \$604 for the year ended March 31, 2015, up from \$579 for the year ended March 31, 2014.
- The releasing spreads for the year ended March 31, 2015 were up 21%.
- Mall portfolio occupancy was 95.4% at March 31, 2015 compared to 95.1% at March 31, 2014.

Arthur Coppola chairman and chief executive officer of Macerich stated, "Over the past several years, Macerich has executed an extensive and successful portfolio transformation by selling lower quality malls and recycling the capital into value-enhancing redevelopment opportunities. Today, Macerich has a unique and irreplaceable portfolio of high quality properties and we are beginning to realize the significant benefits of our portfolio transformation strategy. During the recently completed quarter, additional occupancy gains and continued strong releasing spreads drove solid same center net operating income growth of 5.0%. In addition, we continued to execute on our deep pipeline of value-add redevelopment and expansion projects, while further strengthening our balance sheet through additional long term financings at highly attractive rates."

Developments:

At Tysons Corner Center, the Company's 2.1 million square foot super regional mall, construction continues on the multifamily component of this mixed use project which has also added an office tower and luxury hotel to one of the country's premier retail centers. The 527,000 square foot office tower with major tenants Intelsat and Deloitte opened in August 2014 and is currently more than 85% leased. A 300-room Hyatt Regency hotel opened on April 14, 2015. Additionally, a 30-story, 430-unit luxury residential tower is planned to open in June 2015.

At Broadway Plaza, in Walnut Creek, California, a major redevelopment, including a 235,000 square foot expansion, is underway. This 774,000 square foot mall (pre-expansion) is anchored by Macy's, Nordstrom and Neiman Marcus. The expansion will open in phases starting in fall 2015.

At both Los Cerritos Center and Scottsdale Fashion Square, expansions are underway to add a Dick's Sporting Goods store and a Harkins Theatre. Both projects are planned for completion in the second half of 2015.

At Santa Monica Place a new ArcLight Cinema is being built on the third level above Bloomingdales. Completion of the project is scheduled for fall 2015.

Financing:

The Company has committed to a \$410 million, 11-year fixed rate 3.43% loan on Lakewood Center. The mall is currently unencumbered and the loan proceeds are expected to be used to pay down the line of credit.

2015 Earnings Guidance:

Management is increasing its previously provided FFO per share guidance range to \$3.83 to \$3.93 up from \$3.80 to \$3.90. The guidance does not include the impact of gains or losses on early extinguishment of debt or expenses related to an unsolicited takeover attempt.

Details of the guidance assumptions are included in the Company's Form 8-K supplemental financial information.

- (a) This represents the outside partners' allocation of net income in the Chandler Fashion Center/Freehold Raceway Mall joint venture.
- (b) The Macerich Partnership, L.P. (the "Operating Partnership" or the "OP") has operating partnership units ("OP units"). OP units can be converted into shares of Company common stock. Conversion of the OP units not owned by the Company has been assumed for purposes of calculating FFO per share and the weighted average number of shares outstanding. The computation of average shares for FFO - diluted includes the effect of share and unit-based compensation plans, stock warrants and convertible senior notes using the treasury stock method. It also assumes conversion of MACWH, LP preferred and common units to the extent they are dilutive to the calculation.
- (c) The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO-diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that such a presentation also provides investors with a more meaningful measure of its operating results in comparison to the operating results of other real estate investment trusts ("REITs"). The Company believes that FFO on a diluted basis is a measure investors find most useful in measuring the dilutive impact of outstanding convertible securities. The Company further believes that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income (loss) as defined by GAAP, and is not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO as presented, may not be comparable to similarly titled measures reported by other REITs.

EBITDA of non-comparable centers	(15,498)	(247)
Same Centers - NOI (e)	\$214,295	\$204,083

(d) EBITDA represents earnings before interest, income taxes, depreciation, amortization, noncontrolling interests, extraordinary items, gain (loss) on remeasurement, sale or write down of assets and preferred dividends and includes joint ventures at their pro rata share. Management considers EBITDA to be an appropriate supplemental measure to net income because it helps investors understand the ability of the Company to incur and service debt and make capital expenditures. The Company believes that EBITDA should not be construed as an alternative to operating income as an indicator of the Company's operating performance, or to cash flows from operating activities (as determined in accordance with GAAP) or as a measure of liquidity. The Company also cautions that EBITDA, as presented, may not be comparable to similarly titled measurements reported by other companies.

(e) The Company presents same center NOI because the Company believes it is useful for investors to evaluate the operating performance of comparable centers. Same center NOI is calculated using total EBITDA and subtracting out EBITDA from non-comparable centers and eliminating the management companies and the Company's general and administrative expenses. Same center NOI excludes the impact of straight-line and above/below market adjustments to minimum rents. In both periods, same center NOI includes 100% of former joint venture properties acquired in 2014.
