2. Summary of Significant Accounting Policies: (Continued)

The unaudited interim consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2022. In the opinion of management, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial statements for the interim periods have been made. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accompanying consolidated balance sheet as of December 31, 2022 has been derived from the audited financial statements but does not include all disclosures required by GAAP.

The following table presents a reconciliation of the beginning of period and end of period cash, cash equivalents and restricted cash reported on the Company's consolidated balance sheets to the totals shown on its consolidated statements of cash flows:

4. Investments in Unconsolidated Joint Ventures:

The Company has made the following recent financings or other events within its unconsolidated joint ventures:

On February 2, 2022, the Company's joint venture in FlatIron Crossing replaced the existing \$197,011 loan on the property with a new \$175,000 loan that bears interest at the Secured Overnight Financing Rate ("SOFR") plus 3.70% and matures on February 9, 2025, including extension options. The loan is covered by an interest rate cap agreement that effectively prevents SOFR from exceeding 4.0% through February 15, 2024.

On August 2, 2022, the Company acquired the remaining 50% ownership interest in two former Sears parcels (Deptford Mall and Vintage Faire Mall) in MS Portfolio LLC, the Company's joint venture with Seritage Growth Properties ("Seritage"), for a total purchase price of approximately \$24,544. As a result of this transaction and the shortening of holding periods on certain other assets in the joint venture, an impairment loss was recorded for the twelve months ending December 31, 2022. The Company's share of the impairment loss was \$27,054. Effective as of August 2, 2022, the Company now owns and has consolidated its 100% interest in these two former Sears parcels in its consolidated financial statements (See Note 15—Acquisitions).

On November 14, 2022, the Company's joint venture in Washington Square closed on a four-year maturity date extension for the existing loan to November 1, 2026, including extension options. The Company's joint venture repaid \$15,000 (\$9,000 at the Company's pro rata share) of the outstanding loan balance. The loan bears interest at SOFR plus 4.0% and is covered by an interest rate cap agreement that effectively prevents SOFR from exceeding 4.0%.

On March 3, 2023, the Company's joint venture in Scottsdale Fashion Square replaced the existing \$403,931 mortgage loan on the property with a \$700,000 loan that bears interest at a fixed rate of 6.21%, is interest only during the entire loan term and matures on March 6, 2028.

On April 25, 2023, the Company's joint venture in Deptford Mall closed on a three-year maturity date extension for the existing loan to April 3, 2026, including extension options. The Company's joint venture repaid \$10,000 (\$5,100 at the Company's pro rata share) of the outstanding loan balance at closing. The interest rate on the loan remains unchanged at 3.73%.

Effective May 9, 2023, the Company's joint venture in Country Club Plaza defaulted on the \$295,210 (\$147,605 at the Company's pro rata share) non-recourse loan on the property. The Company's joint venture is in negotiations with the lender on the terms of the loan.

On May 18, 2023, the Company acquired Seritage's remaining 50% ownership interest in the MS Portfolio LLC joint venture that owns five former Sears parcels, for a total purchase price of \$46,687. These parcels are located at Chandler Fashion Center, Danbury Fair Mall, Freehold Raceway Mall, Los Cerritos Center and Washington Square. The Company previously recorded an impairment loss of \$50,197, at the Company's share, during the three months ending March 31, 2023 as a result of shortening the holding periods on these parcels. Upon the closing of this transaction, the Company recorded an additional loss of \$1,166, at the Company's share, during the three months ending June 30, 2023. Effective as of May 18, 2023, the Company now owns and has consolidated its 100% interest in these five former Sears parcels in its consolidated financial statements (See Note 15—Acquisitions).

5. Derivative Instruments and Hedging Activities:

The Company uses interest rate cap agreements to manage the interest rate risk on certain floating rate debt. The Company recorded other comprehensive income related to the marking-to-market of derivative instruments of \$350 and \$9 for the three months ended June 30, 2023 and 2022, respectively, and \$470 and \$40 for the six months ended June 30, 2023 and 2022, respectively. The entire \$470 in other comprehensive income at June 30, 2023 is the Company's pro rata share of hedged derivative instruments from certain unconsolidated joint ventures.

The following derivatives were outstanding at June 30, 2023:

Property	Designation	Notional Amount	Product	LIBOR Rate	Maturity	Fair Value	
						June 30, 2023	December 31, 2022
Santa Monica Place	Non-Hedged	\$ 300,000	Cap	4.00 %	12/9/2023	\$ 1,858	\$ 2,576
The Macerich Partnership, L.P.	Non-Hedged	\$ (300,000)	Sold Cap	4.00 %	12/9/2023	\$ (1,855)	\$ (2,567)

The above derivatives were valued with an aggregate fair value (Level 2 measurement) and were included in other assets (other accrued liabilities). The fair value of the Company's interest rate derivatives was determined using discounted cash flow analysis on the expected cash flows of the derivatives. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves and implied volatilities. The Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair value measurements.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads, to evaluate the likelihood of default by the Company and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its interest rate caps. As a result, the Company determined that its interest rate cap valuations in their entirety are classified in Level 2 of the fair value hierarchy.

8. Leases:
Lessor Leases:

The Company leases its Centers under agreements that are classified as operating leases. These leases generally include minimum rents, percentage rents and recoveries of real estate taxes, insurance and other shopping center operating expenses. Minimum rental revenues are recognized on a straight-line basis over the terms of the related leases. Percentage rents are recognized and accrued when tenants' specified sales targets have been met. Estimated recoveries from certain tenants for their pro rata share of real estate taxes, insurance and other shopping center operating expenses are recognized as revenues in the period the applicable expenses are incurred. Other tenants pay a fixed rate and these tenant recoveries are recognized as revenues on a straight-line basis over the term of the related leases. For leasing revenues in which collectability is not considered probable, lease income is recognized on a cash basis and all previously recognized tenant accounts receivables, including straight-line rent, are fully reserved in the period in which the lease income is determined not to be probable of collection.

The following table summarizes the components of leasing revenue for the three and six months ended June 30, 2023 and 2022:

Fair value was determined using a present value model and an interest rate that included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt.

11. Bank and Other Notes Payable:

Bank and other notes payable consist of the following:

Credit Facility:

The Company has a \$525,000 revolving loan facility that matures on April 14, 2024. All obligations under the facility are guaranteed unconditionally by the Company and are secured in the form of mortgages on certain wholly-owned assets and pledges of equity interests held by certain of the Company's subsidiaries. The credit facility previously bore interest at LIBOR plus a spread of 2.25% to 3.25% depending on the Company's overall leverage level. On March 22, 2023, the Company executed the one-year extension option to April 14, 2024. 12. Financing Arrangement:

On September 30, 2009, the Company formed a joint venture whereby a third party acquired a 49.9% interest in Chandler Fashion Center, a 1,320,000 square foot regional shopping center in Chandler, Arizona, and Freehold Raceway Mall, a 1,549,000 square foot regional shopping center in Freehold, New Jersey (collectively referred to herein as "Chandler Freehold"). As a result of the Company having certain rights under the agreement to repurchase the assets after the seventh year of the formation of Chandler Freehold, the transaction did not qualify for sale treatment. The Company, however, is not obligated to repurchase the assets. The Company accounts for its investment in Chandler Freehold as a financing arrangement. The fair value (Level 3 measurement) of the financing arrangement obligation at June 30, 2023 and December 31, 2022 was based upon a terminal capitalization rate of approximately 6.50% and 6.25%, respectively, a discount rate at June 30, 2023 and December 31, 2022 of 8.25% and 7.75%, respectively, and market rents per square foot of \$35 to \$240. The fair value of the financing arrangement obligation is sensitive to these significant unobservable inputs and a change in these inputs may result in a significantly higher or lower fair value measurement. Distributions to the partner, excluding distributions of excess loan proceeds, and changes in fair value of the financing arrangement obligation are recognized as related party interest (income) expense in the Company's consolidated statements of operations.

During the three and six months ended June 30, 2023 and 2022, the Company recognized related party interest (income) expense in the Company's consolidated statements of operations in connection with the financing arrangement as follows:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2023	2022	2023	2022
Distributions equal to the partner's share of net income (loss)	\$ 260	\$ (248)	\$ (79)	\$ 249
Distributions in excess of the partner's share of net income (loss)	1,352	1,899	4,169	6,861
Adjustment to fair value of financing arrangement obligation	4,368	7,241	(7,517)	9,785
	<u>\$ 5,980</u>	<u>\$ 8,892</u>	<u>\$ (3,427)</u>	<u>\$ 16,895</u>

13. Noncontrolling Interests:

The Company allocates net income (loss) of the Operating Partnership based on the weighted average ownership interest during the period. The net income (loss) of the Operating Partnership that is not attributable to the Company is reflected in the consolidated statements of operations as noncontrolling interests. The Company adjusts the noncontrolling interests in the Operating Partnership at the end of each period to reflect its ownership interest in the Company. The Company had a 96% ownership interest in the Operating Partnership as of June 30, 2023 and December 31, 2022. The remaining 4% limited partnership interest as of June 30, 2023 and December 31, 2022 was owned by certain of the Company's executive officers and directors, certain of their affiliates and other third party investors in the form of OP Units. The OP Units may be redeemed for shares of stock or cash, at the Company's option. The redemption value for each OP Unit as of any balance sheet date is the amount equal to the average of the closing price per share of the Company's common stock, par value \$0.01 per share, as reported on the New York Stock Exchange for the 10 trading days ending on the respective balance sheet date. Accordingly, as of June 30, 2023 and December 31, 2022, the aggregate redemption value of the then-outstanding OP Units not owned by the Company was \$98,661 and \$103,023, respectively.

The Company issued common and preferred units of MACWH, LP in April 2005 in connection with the acquisition of the Wilmore portfolio. The common and preferred units of MACWH, LP are redeemable at the election of the holder. The Company may redeem them for cash or shares of the Company's stock at the Company's option and they are classified as permanent equity.

Included in permanent equity are outside ownership interests in various consolidated joint ventures. The joint ventures do not have rights that require the Company to redeem the ownership interests in either cash or stock.

19. Share and Unit-Based Plans:

Under the Long-Term Incentive Plan ("LTIP"), each award recipient is issued a form of operating partnership units ("LTIP Units") in the Operating Partnership or form of restricted stock units (together with the LTIP Units, the "LTI Units"). Upon the occurrence of specified events and subject to the satisfaction of applicable vesting conditions, LTIP Units (after conversion into OP Units) are ultimately redeemable for common stock of the Company, or cash at the Company's option, on a one-unit for one-share basis. LTI Units receive cash dividends based on the dividend amount paid on the common stock of the Company. The LTIP may include market-indexed awards, performance-based awards and service-based awards.

The market-indexed LTI Units vest over the service period of the award based on the percentile ranking of the Company in terms of total return to stockholders (the "Total Return") per share of common stock relative to the Total Return of a group of peer REITs, as measured at the end of the measurement period. The performance-based LTI Units vest over a specified period based on the Company's operational performance over that period.

During the six months ended June 30, 2023, the Company granted the following LTI Units:

Grant Date	Units	Type	Fair Value per LTI Unit	Vest Date
1/1/2023	577,255	Service-based	\$ 11.26	12/31/2025
1/1/2023	1,030,077	Performance-based	\$ 10.97	12/31/2025
	<u>1,607,332</u>			

The fair value of the service-based LTI Units was determined by the market price of the Company's common stock on the date of grant. The fair value (Level 3 measurement) of the performance-based LTI Units granted on January 1, 2023 was estimated on the date of grant using a Monte Carlo Simulation model that assumed a three-year risk-free interest rate of 4.21% and an expected volatility of 74.23%.

The following table summarizes the activity of the non-vested LTI Units, phantom stock units and stock units:

	LTI Units		Phantom Stock Units		Stock Units

The Company is the sole general partner of, and owns a majority of the ownership interests in, The Macerich Partnership, L.P. (the "Operating Partnership"). As of June 30, 2023, the Operating Partnership owned or had an ownership interest in 44 regional town centers (including office, hotel and residential space adjacent to these shopping centers), four community/power shopping centers, one office property and one redevelopment property. The Centers consist of consolidated Centers ("Consolidated Centers") and unconsolidated joint venture Centers ("Unconsolidated Joint Venture Centers"), unless the context otherwise requires. The property management, leasing and redevelopment of the Company's portfolio is provided by the Company's seven management companies (collectively

referred to herein as the "Management Companies"). The Company is a self-administered and self-managed real estate investment trust ("REIT") and conducts all of its operations through the Operating Partnership and the Management Companies.

The following discussion is based primarily on the consolidated financial statements of the Company for the three and six months ended June 30, 2023 and 2022. It compares the results of operations for the three months ended June 30, 2023 to the results of operations for the three months ended June 30, 2022. It also compares the results of operations and cash flows for the six months ended June 30, 2023 to the results of operations and cash flows for the six months ended June 30, 2022.

This information should be read in conjunction with the accompanying consolidated financial statements and notes thereto.

The Company's joint venture repaid \$10.0 million (\$5.1 million at the Company's pro rata share) of the outstanding loan balance at closing. The interest rate on the loan remains unchanged at 3.73%.

Effective May 9, 2023, the Company's joint venture in Country Club Plaza defaulted on the \$295.2 million (\$147.6 million at the Company's pro rata share) non-recourse loan on the property. The Company's joint venture is in negotiations with the lender on the terms of the loan.

Redevelopment and Development Activities:

The Company has a 50/50 joint venture with Simon Property Group, which was initially formed to develop Los Angeles Premium Outlets, a premium outlet center in Carson, California. The Company has funded \$39.5 million of the total \$78.9 million incurred by the joint venture as of June 30, 2023.

The Company is redeveloping an approximately 150,000 square foot, three-level space (formerly occupied by Bloomingdale's and Arclight Theatre) at Santa Monica Place, a 534,000 square foot regional town center in Santa Monica, California, with an entertainment destination use, high-end fitness, and co-working space. The total cost of the project is estimated to be between \$35.0 million and \$40.0 million. The Company has incurred approximately \$2.0 million as of June 30, 2023. The anticipated opening is in 2024.

The Company's joint venture in Scottsdale Fashion Square, a 1,881,000 square foot regional town center in Scottsdale, Arizona, is redeveloping a two-level Nordstrom wing with luxury-focused retail and restaurant uses. The total cost of the project is estimated to be between \$80.0 million and \$90.0 million, with \$40.0 million and \$45.0 million estimated to be the Company's pro rata share. The Company has incurred \$12.5 million of the total \$25.1 million incurred by the joint venture as of June 30, 2023. The anticipated opening is in 2024.

Other Transactions and Events:

The Company declared a cash dividend of \$0.15 per share of its common stock for each of the first three quarters of 2022 and a cash dividend of \$0.17 per share of its common stock for the fourth quarter of 2022 and the first two quarters of 2023. On August 4, 2023, the Company declared a third quarter cash dividend of \$0.17 per share of its common stock, which will be paid

on September 8, 2023 to stockholders of record on August 18, 2023. The dividend amount will be reviewed by the Board on a quarterly basis.

In connection with the commencement of separate "at the market" offering programs, on each of February 1, 2021 and March 26, 2021, which are referred to as the "February 2021 ATM Program" and the "March 2021 ATM Program," respectively, and collectively as the "ATM Programs," the Company entered into separate equity distribution agreements with certain sales agents pursuant to which the Company may issue and sell shares of its common stock having an aggregate offering price of up to \$500 million under each of the February 2021 ATM Program and the March 2021 ATM Program, or a total of \$1 billion under the ATM Programs. As of June 30, 2023, the Company had approximately \$151.7 million of gross sales of its common stock available under the March 2021 ATM Program. The February 2021 ATM Program was fully utilized as of June 30, 2021 and is no longer active.

See "—Liquidity and Capital Resources" for a further discussion of the Company's anticipated liquidity needs, and the measures taken by the Company to meet those needs.

Inflation:

Most of the leases at the Centers have rent adjustments periodically throughout the lease term. These rent increases are either in fixed increments or based on using an annual multiple of increases in the Consumer Price Index. In addition, the routine expiration of leases for spaces 10,000 square feet and under each year enables the Company to replace existing leases with new leases at higher base rents if the rents of the existing leases are below the then existing market rate. The Company has generally entered into leases that require tenants to pay a stated amount for operating expenses, generally excluding property taxes, regardless of the expenses actually incurred at any Center, which places the burden of cost control on the Company. Additionally, most leases require the tenants to pay their pro rata share of property taxes and utilities. Inflation is expected to have a negative impact on the Company's costs in 2023.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with generally accepted accounting principles ("GAAP") in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Some of these estimates and assumptions include judgments on revenue recognition, estimates for common area maintenance and real estate tax accruals, provisions for uncollectible accounts, impairment of long-lived assets, the allocation of purchase price between tangible and intangible assets, capitalization of costs and fair value measurements. The Company's significant accounting policies and estimates are described in more detail in Note 2—Summary of Significant Accounting Policies in the Company's Notes to the Consolidated Financial Statements. However, the following policies are deemed to be critical.

Acquisitions:

Upon the acquisition of real estate properties, the Company evaluates whether the acquisition is a business combination or asset acquisition. For both business combinations and asset acquisitions, the Company allocates the purchase price of properties to acquired tangible assets and intangible assets and liabilities. For asset acquisitions, the Company capitalizes transaction costs and allocates the purchase price using a relative fair value method allocating all accumulated costs. For business combinations, the Company expenses transaction costs incurred and allocates purchase price based on the estimated fair value of each separately identified asset and liability. The Company allocates the estimated fair value of acquisitions to land, building, tenant improvements and identified intangible assets and liabilities, based on their estimated fair values. In addition, any assumed mortgage notes payable are recorded at their estimated fair values. The estimated fair value of the land and buildings is determined utilizing an "as if vacant" methodology. Tenant improvements represent the tangible assets associated with the existing leases valued on a fair value basis at the acquisition date prorated over the remaining lease terms. The tenant improvements are classified as an asset under property and are depreciated over the remaining lease terms. Identifiable intangible assets and liabilities relate to the value of in-place operating leases which come in three forms: (i) leasing commissions and legal costs, which represent the value associated with "cost avoidance" of acquiring in-place leases, such as lease commissions paid under terms generally experienced in the Company's markets; (ii) value of in-place leases, which represents the estimated loss of revenue and of costs incurred for the period required to lease the "assumed vacant" property to the occupancy level when purchased; and (iii) above or below-market value of in-place leases, which represents the difference between the contractual rents and market rents at the time of the acquisition, discounted for tenant credit risks. Leasing commissions and legal costs are recorded in deferred charges and other assets and are amortized over the remaining lease terms. The value of in-place leases are recorded in deferred charges and other assets and amortized over the remaining lease terms plus any below-market fixed rate renewal options. Above or below-market leases are classified in deferred charges and other assets

or in other accrued liabilities, depending on whether the contractual terms are above or below-market, and the asset or liability is amortized to minimum rents over the remaining terms of the leases. The remaining lease terms of below-market leases may include certain below-market fixed-rate renewal periods. In considering whether or not a lessee will execute a below-market fixed-rate lease renewal option, the Company evaluates economic factors and certain qualitative factors at the time of acquisition such as tenant mix in the Center, the Company's relationship with the tenant and the availability of competing tenant space.

Remeasurement gains and losses are recognized when the Company becomes the primary beneficiary of an existing equity method investment that is a variable interest entity to the extent that the fair value of the existing equity investment exceeds the carrying value of the investment, and remeasurement losses to the extent the carrying value of the investment exceeds the fair value. The fair value is determined based on a discounted cash flow model, with the significant unobservable inputs including discount rate, terminal capitalization rate and market rents.

Asset Impairment:

The Company assesses whether an indicator of impairment in the value of its properties exists by considering expected future operating income, trends and prospects, as well as the effects of demand, competition and other economic factors. Such factors include projected rental revenue, operating costs and capital expenditures as well as estimated holding periods and capitalization rates. If an impairment indicator exists, the determination of recoverability is made based upon the estimated undiscounted future net cash flows, excluding interest expense. The amount of impairment loss, if any, is determined by comparing the fair value, as determined by a discounted cash flows analysis or a contracted sales price, with the carrying value of the related assets. The Company generally holds and operates its properties long-term, which decreases the likelihood of their carrying values not being recoverable. A shortened holding period increases the risk that the carrying value of a long-lived asset is not recoverable. Properties classified as held for sale are measured at the lower of the carrying amount or fair value less cost to sell.

The Company reviews its investments in unconsolidated joint ventures for a series of operating losses and other factors that may indicate that a decrease in the value of its investments has occurred which is other-than-temporary. The investment in each unconsolidated joint venture is evaluated periodically, and as deemed necessary, for recoverability and valuation declines that are other-than-temporary.

Fair Value of Financial Instruments:

The fair value hierarchy distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity and the reporting entity's own assumptions about market participant assumptions. Level 1 inputs utilize quoted prices in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, which is typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

The Company calculates the fair value of financial instruments and includes this additional information in the Notes to the Consolidated Financial Statements when the fair value is different than the carrying value of those financial instruments. When the fair value reasonably approximates the carrying value, no additional disclosure is made.

The Company records its financing arrangement (See Note 12—Financing Arrangement in the Company's Notes to the Consolidated Financial Statements) obligation at fair value on a recurring basis with changes in fair value being recorded as interest expense in the Company's consolidated statements of operations. The fair value is determined based on a discounted cash flow model, with the significant unobservable inputs including discount rate, terminal capitalization rate, and market rents. The fair value of the financing arrangement obligation is sensitive to these significant unobservable inputs and a change in these inputs may result in a significantly higher or lower fair value measurement.

Results of Operations

Many of the variations in the results of operations, discussed below, occurred because of the transactions affecting the Company's properties described in Management's Overview and Summary above, including the Redevelopment Properties, the JV Transition Centers and the Disposition Property (as defined below).

For purposes of the discussion below, the Company defines “Same Centers” as those Centers that are substantially complete and in operation for the entirety of both periods of the comparison. Non-Same Centers for comparison purposes include those Centers or properties that are going through a substantial redevelopment often resulting in the closing of a portion of the Center (“Redevelopment Properties”), those properties that have recently transitioned to or from equity method joint ventures to or from consolidated assets (“JV Transition Centers”) and properties that have been disposed of (“Disposition Property”). The Company moves a Center in and out of Same Centers based on whether the Center is substantially complete and in operation for the entirety of both periods of the comparison. Accordingly, the Same Centers consist of all Consolidated Centers, excluding the Redevelopment Properties, the JV Transition Centers and the Disposition Property, for the periods of comparison.

For the comparison of the three and six months ended June 30, 2023 to the three and six months ended June 30, 2022, the JV Transition Centers are the two former Sears parcels at Deptford Mall and Vintage Faire Mall and the five former Sears parcels at Chandler Fashion Center, Danbury Fair Mall, Freehold Raceway Mall, Los Cerritos Center and Washington Square (See “Acquisitions” in Management’s Overview and Summary). The Disposition Property is The Marketplace at Flagstaff (See “Dispositions” in Management’s Overview and Summary). For the comparison of the three and six months ended June 30, 2023 to the three and six months ended June 30, 2022, there are no Redevelopment Properties.

Unconsolidated joint ventures are reflected using the equity method of accounting. The Company’s pro rata share of the results from these Centers is reflected in the Consolidated Statements of Operations as equity in loss of unconsolidated joint ventures.

The Company considers tenant annual sales, occupancy rates (excluding large retail stores or “Anchors”) and releasing spreads (i.e., a comparison of initial average base rent per square foot on leases executed during the trailing twelve months to average base rent per square foot at expiration for the leases expiring during the trailing twelve months based on the spaces 10,000 square feet and under) to be key performance indicators of the Company’s internal growth.

During the second quarter of 2023, comparable tenant sales for spaces less than 10,000 square feet across the portfolio decreased by 4.3% relative to the second quarter of 2022. The leased occupancy rate of 92.6% at June 30, 2023 represented a 0.8% increase from 91.8% at June 30, 2022. Releasing spreads increased as the Company executed leases at an average rent of \$61.34 for new and renewal leases executed compared to \$55.12 on leases expiring, resulting in a releasing spread increase of \$6.22 per square foot, or 11.3%, for the trailing twelve months ended June 30, 2023.

The Company continues to renew or replace leases that are scheduled to expire in 2023, however, due to a variety of factors, the Company cannot be certain of its ability to sign, renew or replace leases expiring in 2023 or beyond. The remaining 2023 lease expirations continue to be an important focal point for the Company. As of June 30, 2023, the Company has executed renewal leases or commitments on 76% of its 2023 expiring square footage of space that is not otherwise expected to close, with another 17% in the letter of intent stage.

During the quarter ended June 30, 2023, the Company signed 70 new leases and 121 renewal leases comprising approximately 1.4 million square feet of GLA. The average tenant allowance was \$14.13 per square foot.

Outlook

The Company has a long-term four-pronged business strategy that focuses on the acquisition, leasing and management, redevelopment and development of regional town centers. Although the majority of the key fundamentals at the Centers continued to improve during 2022 and into the first half of 2023, operating results in 2023 could be negatively impacted by certain macro-economic factors, including any continued increase in inflation and interest rates or an economic slowdown or recession.

Traffic at the Company’s Centers for the first half of 2023 was approximately 95% of 2022 levels. Portfolio tenant sales from spaces less than 10,000 square feet were \$853 compared to \$869 for the trailing twelve months ended December 31, 2022. Comparable tenant sales from spaces less than 10,000 square feet across the portfolio for the trailing twelve months ended June 30, 2023 decreased by 1.6% compared to the same timeframe in 2022.

During 2022, the Company leased 3.8 million square feet, which represented the strongest year of leasing volume for the Company when measured on a comparable center basis since before the 2009 Global Financial Crisis, and square footage leasing volumes for the first half of 2023 have outpaced the same timeframe in 2022. During the second quarter of 2023, the Company signed 191 leases for approximately 1.4 million square feet, compared to 270 leases and 1.2 million square feet leased during the second quarter of 2022, representing a 21% increase in the amount of square footage leased and a 29% decrease in the number of leases signed on a comparable center basis. For the six months ending June 30, 2023, the Company has signed leases for 34% more square footage than during the same timeframe in 2022, on a comparable center basis.

The Company believes that diversity of use within its tenant base will be a prominent internal growth catalyst at its Centers going forward, as new uses enhance the productivity and diversity of the tenant mix and have the potential to significantly increase customer traffic at the applicable Centers. During the quarter ended June 30, 2023, the Company signed deals for new stores with new-to-Macerich portfolio uses for 124,000 square feet, with another 197,000 square feet of such new-to-Macerich portfolio leases currently in negotiation as of the date of this Quarterly Report on Form 10-Q. During the twelve months ended December 31, 2022, the Company signed 101 leases for new stores with new-to-Macerich portfolio uses totaling approximately 441,000 square feet.

As of June 30, 2023, the leased occupancy rate was 92.6%, a 0.8% increase compared to the leased occupancy rate at June 30, 2022 of 91.8% and a sequential 0.4% increase compared to 92.2% at March 31, 2023.

Many of the Company's leases contain co-tenancy clauses. Certain Anchor or small tenant closures have become permanent, whether caused by the pandemic, or otherwise, and co-tenancy clauses within certain leases may be triggered as a result. The Company does not anticipate that the negative impact of such clauses on lease revenue will be significant.

During 2022, the pace of bankruptcy filings involving the Company's tenants decreased substantially as compared to 2021, with only two bankruptcy filings involving three of the Company's tenants representing approximately 111,000 square feet of leased space and \$2.2 million of annual leasing revenue at the Company's share. The Company continues to expect that the pace of bankruptcy filings in 2023 will be relatively low compared to 2020. Year-to-date in 2023, there have been six bankruptcy filings involving the Company's tenants totaling eleven leases and representing approximately 84,000 square feet of leased space and \$2.6 million of annual leasing revenue at the Company's share.

During 2023, the Company expects to generate positive cash flow from operations after recurring operating capital expenditures, leasing capital expenditures and payment of dividends. This assumption does not include any potential capital generated from dispositions, refinancings or issuances of common equity. This expected surplus will be used to fund the Company's development and redevelopment pipeline and to the extent available, de-lever the Company's balance sheet.

The Company continues to make substantial progress addressing its near-term, non-recourse loan maturities, with six completed transactions since the start of the fourth quarter of 2022 totaling over \$2.2 billion, or approximately \$1.5 billion at the Company's pro rata share. For additional information on the Company's financing transactions in the year ended 2022 through the date of this Quarterly Report on Form 10-Q, see "Financing Activities" in Management's Overview and Summary.

Rising interest rates are increasing the cost of the Company's borrowings due to its outstanding floating-rate debt and have led to higher interest rates on new fixed-rate debt. The Company expects to incur increased interest expense from the refinancing or extension of loans that may currently carry below-market interest rates. In certain cases, the Company may limit its exposure to interest rate fluctuations related to a portion of its floating-rate debt by using interest rate cap and swap agreements. Such agreements, subject to current market conditions, allow the Company to replace floating-rate debt with fixed-rate debt in order to achieve its desired ratio of floating-rate to fixed-rate debt. However, any interest rate cap or swap agreements that the Company enters into may not be effective in reducing its exposure to interest rate changes.

Comparison of Three Months Ended June 30, 2023 and 2022

Revenues:

Leasing revenue increased by \$4.1 million, or 2.2%, from 2022 to 2023. The increase in leasing revenue is attributed to increases of \$2.8 million from the Same Centers and \$1.9 million from the JV Transition Centers offset in part by a decrease of \$0.6 million from the Disposition Property. Leasing revenue includes the amortization of above and below-market leases, the amortization of straight-line rents, lease termination income, percentage rent and the recovery of bad debts. The amortization of above and below-market leases decreased from \$0.6 million in 2022 to \$0.5 million in 2023. The amortization of straight-line rents decreased from \$(0.5) million in 2022 to \$(0.8) million in 2023. Lease termination income decreased from \$0.6 million in 2022 to \$0.0 million in 2023. Percentage rent decreased from \$6.9 million in 2022 to \$4.5 million in 2023. Recovery of bad debts decreased from \$1.4 million in 2022 to \$0.6 million in 2023.

Management Companies' revenue increased from \$7.4 million in 2022 to \$8.0 million in 2023 primarily due to an increase in leasing and development fees.

Shopping Center and Operating Expenses:

Shopping center and operating expenses increased \$0.2 million, or 0.3%, from 2022 to 2023. The increase in shopping center and operating expenses is attributed to an increase of \$0.5 million from the JV Transition Centers offset in part by decreases of \$0.2 million from the Same Centers and \$0.1 million from the Disposition Property.

Leasing Expenses:

Leasing expenses increased from \$8.1 million in 2022 to \$8.4 million in 2023 due to an increase in compensation expense.

REIT General and Administrative Expenses:

REIT general and administrative expenses increased \$2.4 million from 2022 to 2023 primarily due to an increase in compensation and consulting expense.

Depreciation and Amortization:

Depreciation and amortization decreased \$2.1 million from 2022 to 2023. The decrease in depreciation and amortization is attributed to a decrease of \$2.6 million from the Same Centers and \$0.4 million from the Disposition Property offset in part by an increase of \$0.9 million from the JV Transition Centers.

Interest Expense:

Interest expense increased \$1.5 million from 2022 to 2023. The increase in interest expense is attributed to increases of \$2.5 million from the Same Centers and \$1.9 million from higher outstanding balances and interest rates on the Company's revolving line of credit offset in part by \$2.9 million from the financing arrangement (See Note 12—Financing Arrangement in the Company's Notes to the Consolidated Financial Statements). The decrease in interest expense from the financing arrangement is primarily due to the change in fair value of the underlying properties and the mortgage notes payable on the underlying properties.

Equity in (Loss) Income of Unconsolidated Joint Ventures:

Equity in (loss) income of unconsolidated joint ventures increased \$13.3 million from 2022 to 2023. The increase in equity in (loss) income of unconsolidated joint ventures is primarily due to the JV Transition Centers.

Gain (loss) on Sale or Write Down of Assets, net:

The gain (loss) on sale or write down of assets, net increased \$11.4 million from 2022 to 2023 primarily due to the sale of The Marketplace at Flagstaff in 2023 (See "Dispositions" in Management's Overview and Summary).

Net Loss:

Net loss decreased \$3.3 million from 2022 to 2023. The decrease in net loss is primarily due to the variances noted above.

Funds From Operations ("FFO"):

Primarily as a result of the factors mentioned above, FFO attributable to common stockholders and unit holders—diluted, excluding financing expense in connection with Chandler Freehold decreased 13.8% from \$102.9 million in 2022 to \$88.7 million in 2023. For a reconciliation of net loss attributable to the Company, the most directly comparable GAAP financial measure, to FFO attributable to common stockholders and unit holders—diluted, and FFO attributable to common stockholders and unit holders, excluding financing expense in connection with Chandler Freehold—diluted, see "Funds From Operations ("FFO")" below.

The decrease in interest expense from the financing arrangement is primarily due to the change in fair value of the underlying properties and the mortgage notes payable on the underlying properties.

Investing Activities:

Cash provided by investing activities increased \$7.8 million from 2022 to 2023. The increase in cash provided by investing activities is primarily attributed to an increase in distributions from unconsolidated joint ventures of \$115.2 million offset in part by increases in acquisitions of property of \$46.7 million, development, redevelopment and renovation of \$11.5 million, property improvements of \$17.7 million and decreases in proceeds from the sale of assets of \$2.8 million and proceeds from collection of receivable in connection with sale of joint venture property of \$21.0 million. The increase in distributions from unconsolidated joint ventures is primarily due to the distribution of net loan proceeds from the Scottsdale Fashion Square refinance (See "—Financing Activities" in Management's Overview and Summary).

Financing Activities:

Cash used in financing activities increased \$18.9 million from 2022 to 2023. The increase in cash used in financing activities is primarily due to the increase in payments on mortgages, bank and other notes payable of \$105.3 million and increase in deferred financing costs of \$14.6 million offset by proceeds received from proceeds from mortgages, bank and other notes payable of \$105.0 million.

Liquidity and Capital Resources

The Company anticipates meeting its liquidity needs for its operating expenses, debt service and dividend requirements for the next twelve months and beyond through cash generated from operations, distributions from unconsolidated joint ventures, working capital reserves and/or borrowings under its line of credit.

Uses of Capital

The following tables summarize capital expenditures incurred at the Centers (at the Company's pro rata share):

(Dollars in thousands)	For the Six Months Ended June 30,	
	2023	2022
Consolidated Centers:		
Acquisitions of property, building improvement and equipment(1)	\$ 58,717	\$ 5,981
Development, redevelopment, expansions and renovations of Centers	35,216	23,519

	<u>\$ 116,932</u>	<u>\$ 40,909</u>
Unconsolidated Joint Venture Centers:		
Acquisitions of property, building improvement and equipment	\$ 4,474	\$ 4,102
Development, redevelopment, expansions and renovations of Centers	35,967	27,679
Tenant allowances	6,053	8,962
Deferred leasing charges	1,782	1,700
	<u>\$ 48,276</u>	<u>\$ 42,443</u>

(1) Includes \$46.7 million for the six months ended June 30, 2023, relating to the acquisition of five former Sears parcels in the MS Portfolio LLC joint venture (See "Acquisitions" in Management's Overview and Summary).

The Company expects amounts to be incurred during the next twelve months for tenant allowances and deferred leasing charges to be comparable to 2022. The Company expects to incur approximately \$150.0 million to \$175.0 million during 2023 for development, redevelopment, expansion and renovations. Capital for these expenditures, developments and/or redevelopments has been, and is expected to continue to be, obtained from a combination of cash on hand, debt or equity financings, which are expected to include borrowings under the Company's line of credit, from property financings and construction loans, each to the extent available.

Sources of Capital

The Company has also generated liquidity in the past, and may continue to do so in the future, through equity offerings and issuances, property refinancings, joint venture transactions and the sale of non-core assets. For example, the Company sold The Marketplace at Flagstaff in Flagstaff, Arizona on May 2, 2023 and Superstition Springs Power Center in Mesa, Arizona on July 17, 2023. The Company used the proceeds from these sales to pay down its line of credit and other debt obligations. During the year ended December 31, 2022 and six months ended June 30, 2023, the Company and certain joint venture partners sold various land parcels in separate transactions for aggregate proceeds of \$63.3 million at the Company's share, which the Company used to pay down debt and for other general corporate purposes. Furthermore, the Company has filed a shelf registration statement, which registered an unspecified amount of common stock, preferred stock, depositary shares, debt securities, warrants, rights, stock purchase contracts and units that may be sold from time to time by the Company.

On each of February 1, 2021 and March 26, 2021, the Company registered a separate "at the market" offering program, pursuant to which the Company may issue and sell shares of its common stock having an aggregate offering price of up to \$500 million under each ATM Program, or a total of \$1.0 billion under the ATM Programs, in amounts and at times to be determined by the Company. The February 2021 ATM Program was fully utilized as of June 30, 2021 and is no longer active. During the three and six months ended June 30, 2023, no shares were issued under the March 2021 ATM Program. As of June 30, 2023, the Company had approximately \$151.7 million of gross sales of its common stock available under the March 2021 ATM Program.

The capital and credit markets can fluctuate and, at times, limit access to debt and equity financing for companies. The Company has been able to access capital; however, there is no assurance the Company will be able to do so in future periods or on similar terms and conditions. Many factors impact the Company's ability to access capital, such as its overall debt level, interest rates, interest coverage ratios and prevailing market conditions, including periods of economic slowdown or recession. For example, the credit markets have experienced and may continue to experience a slowdown stemming from broader market issues pertaining to various factors, including among others, the health of regional banks, prevailing market sentiment regarding various commercial real estate sectors and interest rate increases imposed by the Federal Reserve. The duration of any such impact is unknown. The Company expects to incur increased interest expense from the refinancing or extension of loans that may carry below-market interest rates. In addition, increases in the Company's proportion of floating rate debt will cause it to be subject to interest rate fluctuations in the future.

The Company's total outstanding loan indebtedness, which includes mortgages and other notes payable, at June 30, 2023 was \$6.85 billion (consisting of \$4.30 billion of consolidated debt, less \$0.40 billion of noncontrolling interests, plus \$2.94 billion of its pro rata share of unconsolidated joint venture debt). The majority of the Company's debt consists of fixed-rate conventional mortgage notes collateralized by individual properties. The Company expects that all of the maturities during the next twelve months will be refinanced, restructured, extended and/or paid off from the Company's line of credit or cash on hand, with the exception of Towne Mall (See "—Financing Activities" in Management's Overview and Summary).

The Company believes that the pro rata debt provides useful information to investors regarding its financial condition because it includes the Company's share of debt from unconsolidated joint ventures and, for consolidated debt, excludes the Company's partners' share from consolidated joint ventures, in each case presented on the same basis. The Company has several significant joint ventures and presenting its pro rata share of debt in this manner can help investors better understand the Company's financial condition after taking into account the Company's economic interest in these joint ventures. The Company's pro rata share of debt should not be considered as a substitute for the Company's total consolidated debt determined in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.

The Company accounts for its investments in joint ventures that it does not have a controlling interest or is not the primary beneficiary using the equity method of accounting and those investments are reflected on the consolidated balance sheets of the Company as investments in unconsolidated joint ventures.

Additionally, as of June 30, 2023, the Company was contingently liable for \$40.9 million in letters of credit guaranteeing performance by the Company of certain obligations relating to the Centers. As of June 30, 2023, \$40.7 million of these letters of credit were secured by restricted cash. The Company does not believe that these letters of credit will result in a liability to the Company.

The Company continues to make substantial progress addressing its near-term, non-recourse loan maturities, with six completed transactions since the start of the fourth quarter of 2022 totaling over \$2.2 billion, or approximately \$1.5 billion at the Company's pro rata share. For additional information on the Company's financing transactions in the year ended 2022 through the date of this Quarterly Report on Form 10-Q, see "Financing Activities" in Management's Overview and Summary.

The Company has a \$525 million revolving loan facility that matures on April 14, 2024. The revolving loan facility can be expanded up to \$800 million, subject to receipt of lender commitments and other conditions. All obligations under the credit facility are guaranteed unconditionally by the Company and are secured in the form of mortgages on certain wholly-owned assets and pledges of equity interests held by certain of the Company's subsidiaries. The credit facility previously bore interest at LIBOR plus a spread of 2.25% to 3.25% depending on the Company's overall leverage level. On March 22, 2023, the Company executed the one-year extension option to April 14, 2024. Additionally, effective March 13, 2023, the credit facility converted from LIBOR to 1-month Term SOFR with an applicable benchmark replacement increase adjustment of 0.11448%. As of June 30, 2023, the borrowing rate was SOFR plus a spread of 2.36%. As of June 30, 2023, borrowings under the credit facility were \$130.0 million less unamortized deferred finance costs of \$5.7 million for the revolving loan facility at a total interest rate of 9.07%. As of June 30, 2023, the Company's availability under the revolving loan facility for additional borrowings was \$394.8 million.

Cash dividends and distributions for the six months ended June 30, 2023 were \$81.1 million (including distributions from consolidated joint ventures of \$4.0 million), which were funded by operations.

At June 30, 2023, the Company was in compliance with all applicable loan covenants under its agreements.

At June 30, 2023, the Company had cash and cash equivalents of \$92.5 million.

Funds From Operations ("FFO")

The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO—diluted as supplemental measures for the real estate industry and a supplement to GAAP measures. The National Association of Real Estate Investment Trusts defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

The Company accounts for its joint venture in Chandler Freehold as a financing arrangement. In connection with this treatment, the Company recognizes financing expense on (i) the changes in fair value of the financing arrangement obligation, (ii) any payments to the joint venture partner equal to their pro rata share of net income and (iii) any payments to the joint venture partner less than or in excess of their pro rata share of net income. The Company excludes from its definition of FFO the noted expenses related to the changes in fair value and for the payments to the joint venture partner less than or in excess of their pro rata share of net income.

The Company also presents FFO excluding financing expense in connection with Chandler Freehold.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that such a presentation also provides investors with a meaningful measure of its operating results in comparison to the operating results of other REITs. In addition, the Company believes that FFO excluding financing expense in connection with Chandler Freehold provides useful supplemental information regarding the Company's performance as it shows a more meaningful and consistent comparison of the Company's operating performance and allows investors to more easily compare the Company's results. The Company further believes that FFO on a diluted basis is a measure investors find most useful in measuring the dilutive impact of outstanding convertible securities.

The Company believes that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income as defined by GAAP, and is not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO, as presented, may not be comparable to similarly titled measures reported by other real estate investment trusts.

Management compensates for the limitations of FFO by providing investors with financial statements prepared according to GAAP, along with this detailed discussion of FFO and a reconciliation of net (loss) income to FFO and FFO—diluted. Management believes that to further understand the Company's performance, FFO should be compared with the Company's reported net (loss) income and considered in addition to cash flows in accordance with GAAP, as presented in the Company's consolidated financial statements.

The following reconciles net loss attributable to the Company to FFO and FFO—diluted attributable to common stockholders and unit holders—basic and diluted, excluding financing expense in connection with Chandler Freehold for the three and six months ended June 30, 2023 and 2022 (dollars and shares in thousands):

The computation of FFO—diluted shares outstanding includes the effect of share and unit-based compensation plans using the treasury stock method. It also assumes the conversion of MACWH, LP common and preferred units to the extent that they are dilutive to the FFO—diluted computation.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company's primary market risk exposure is interest rate risk. The Company has managed and will continue to manage interest rate risk by (1) maintaining a ratio of fixed rate, long-term debt to total debt such that floating rate exposure is kept at an acceptable level, (2) reducing interest rate exposure on certain long-term floating rate debt through the use of interest rate caps and/or swaps with matching maturities where appropriate, (3) using treasury rate locks where appropriate to fix rates on anticipated debt transactions, and (4) taking advantage of favorable market conditions for long-term debt and/or equity.

The following table sets forth information as of June 30, 2023 concerning the Company's long-term debt obligations, including principal cash flows by scheduled maturity, weighted average interest rates and estimated fair value (dollars in thousands):

The Consolidated Centers' total fixed rate debt at June 30, 2023 and December 31, 2022 was \$3.8 billion and \$3.7 billion, respectively. The average interest rate on the fixed rate debt at June 30, 2023 and December 31, 2022 was 4.21% and 4.01%, respectively. The Consolidated Centers' total floating rate debt at June 30, 2023 and December 31, 2022 was \$505.8 million and \$700.7 million, respectively. The average interest rate on the floating rate debt at June 30, 2023 and December 31, 2022 was 7.23% and 6.53%, respectively.

The Company's pro rata share of the unconsolidated joint venture Centers' fixed rate debt at June 30, 2023 and December 31, 2022 was \$2.9 billion and \$2.7 billion, respectively. The average interest rate on the fixed rate debt at June 30, 2023 and December 31, 2022 was 4.78% and 4.46%, respectively. The Company's pro rata share of the unconsolidated joint venture Centers' floating rate debt at June 30, 2023 and December 31, 2022 was \$93.0 million and \$90.7 million, respectively. The average interest rate on the floating rate debt at June 30, 2023 and December 31, 2022 was 6.81% and 5.81%, respectively.

The Company uses derivative financial instruments in the normal course of business to manage or hedge interest rate risk and records all derivatives on the balance sheet at fair value. Interest rate cap agreements offer protection against floating rates on the notional amount from exceeding the rates noted in the above schedule, and interest rate swap agreements effectively replace a floating rate on the notional amount with a fixed rate as noted above. As of June 30, 2023, the Company has interest rate cap agreements in place (See Note 4—Investments in Unconsolidated Joint Ventures and Note 5—Derivative Instruments and Hedging Activities in the Company's Notes to the Consolidated Financial Statements). The respective loans each require an interest rate cap agreement to be in place at all times, which limits how high the prevailing floating loan rate index (i.e., LIBOR or SOFR) for the loans can rise. As of the date of this Quarterly Report on Form 10-Q, LIBOR/SOFR for each of these loans exceeded the strike interest rate (the "Strike Rate") within the required interest rate cap agreement. If LIBOR/SOFR does exceed the Strike Rate, each of these loans would then be considered fixed rate debt. If LIBOR/SOFR for these respective loans thereafter no longer exceeds the Strike Rate, then these loans would once again be considered floating rate debt.

In addition, the Company has assessed the market risk for its floating rate debt and believes that a 1% increase in interest rates would decrease future earnings and cash flows by approximately \$6.0 million per year based on \$598.9 million of floating rate debt outstanding at June 30, 2023.

The fair value of the Company's long-term debt is estimated based on a present value model utilizing interest rates that reflect the risks associated with long-term debt of similar risk and duration. In addition, the method of computing fair value for mortgage notes payable included a credit value adjustment based on the estimated value of the property that serves as collateral for the underlying debt (See Note 10—Mortgage Notes Payable and Note 11—Bank and Other Notes Payable in the Company's Notes to the Consolidated Financial Statements).

The Company expects that all LIBOR settings relevant to it will cease to be published or will no longer be representative after June 30, 2023. The discontinuation of LIBOR has not affected the Company's ability to borrow or maintain already outstanding borrowings or hedging transactions. As of June 30, 2023, each of the agreements governing the Company's variable rate debt has been converted to a SOFR-based interest rate, with the exception of the Santa Monica Place LIBOR-based loan. The Company has not incurred significant costs in completing such conversions to SOFR, nor have the Company's borrowing costs changed significantly from such conversions. The Company has converted the Santa Monica Place loan to SOFR effective July 9, 2023.

Item 4. Controls and Procedures

As required by Rule 13a-15(b) under the Securities Exchange Act of 1934, management carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on their evaluation as of June 30, 2023, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective to ensure that the information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is (a) recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and (b) accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In addition, there has been no change in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15(d)-15(f) under the Securities Exchange Act of 1934) that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
