- Our joint venture in One Westside in Los Angeles, CA has delivered the approximately 584,000 square foot, three-level creative office space to Google, which is anticipated to open this summer. The project remains ahead of schedule and on budget, and is fully funded by a construction loan.

  Center with mixed uses and possibly flagship retail uses; the former Sears parcels at both Washington Square and Los Cerritos
  Center with mixed-use densification expansions; FlatIron Crossing in Broomfield, Colorado with a multi-phased, mixed-use

- (a) The Company accounts for its investment in the Chandler Fashion Center and Freehold Raceway Mall ("Chandler Freehold") joint venture as a financing arrangement. As a result, the Company has included in interest expense (i) an expense (credit) of \$2,543 and (\$863) to adjust for the change in the fair value of the financing arrangement obligation during the three months ended March 31, 2022 and 2021, respectively; (ii) distributions of \$497 and (\$1,232) to its partner representing the partner's share of net income (loss) for the three months ending March 31, 2022 and 2021, respectively; and (iii) distributions of \$4,962 and \$3,414 to its partner in excess of the partner's share of net income for the three months ended March 31, 2022 and 2021, respectively.
- (b) The Operating Partnership has operating partnership units ("OP units"). OP units can be converted into shares of Company common stock. Conversion of the OP units not owned by the Company has been assumed for purposes of calculating FFO per share and the weighted average number of shares outstanding. The computation of average shares for FFO—diluted includes the effect of share and unit-based compensation plans, stock warrants and convertible senior notes using the treasury stock method. It also assumes conversion of MACWH, LP preferred and common units to the extent they are dilutive to the calculation.
- (c) The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO-diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("Nareit") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from sales of properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

The Company accounts for its joint venture in Chandler Freehold as a financing arrangement. In connection with this treatment, the Company recognizes financing expense on (i) the changes in fair value of the financing arrangement, (ii) any payments to such joint venture partner equal to their pro rata share of net income and (iii) any payments to such joint venture partner less than or in excess of their pro rata share of net income. The Company excludes the noted expenses related to the changes in fair value and for the payments to such joint venture partner less than or in excess of their pro rata share of net income.

The Company also presents FFO excluding financing expense in connection with Chandler Freehold.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that such a presentation also provides investors with a more meaningful measure of its operating results in comparison to the operating results of other REITs. In addition, the Company believes that FFO excluding financing expense in connection with Chandler Freehold and non-routine costs associated with extinguishment of debt provide useful supplemental information regarding the Company's performance as they show a more meaningful and consistent comparison of the Company's operating performance and allows investors to more easily compare the Company's results. The Company believes that FFO on a diluted basis is a measure investors find most useful in measuring the dilutive impact of convertible securities.

The Company further believes that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income (loss) as defined by GAAP, and is not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO as presented, may not be comparable to similarly titled measures reported by other REITs.

(d) Adjusted EBITDA represents earnings before interest, income taxes, depreciation, amortization, noncontrolling interests in the OP, extraordinary items, loss (gain) on remeasurement, sale or write down of assets, loss (gain) on extinguishment of debt and preferred dividends and includes joint ventures at their pro rata share. Management considers Adjusted EBITDA to be an appropriate supplemental measure to net income because it helps investors understand the ability of the Company to incur and service debt and make capital expenditures. The Company believes that Adjusted EBITDA should not be construed as an alternative to operating income as an indicator of the Company's operating performance, or to cash flows from operating activities (as determined in accordance with GAAP) or as a measure of liquidity. The Company also cautions that Adjusted EBITDA, as presented, may not be comparable to similarly titled measurements reported by other companies.

(e) The Company presents Same Center NOI because the Company believes it is useful for investors to evaluate the operating performance of comparable centers. Same Center NOI is calculated using total Adjusted EBITDA and eliminating the impact of the Management Companies' revenues and operating expenses, leasing expenses (including joint ventures at pro rata), the Company's REIT general and administrative expenses and the straight-line and above/below market adjustments to minimum rents and subtracting out NOI from non-Same Centers. The Company also presents Same Center NOI, excluding lease termination income, as the Company believes that it is useful for investors to evaluate operating performance without the impact of lease termination income.

- (a) This column reflects the Company's legal ownership in the listed properties. Legal ownership may, at times, not equal the Company's economic interest in the listed properties because of various provisions in certain joint venture agreements regarding distributions of cash flow based on capital account balances, allocations of profits and losses and payments of preferred returns. As a result, the Company's actual economic interest (as distinct from its legal ownership interest) in certain of the properties could fluctuate from time to time and may not wholly align with its legal ownership interests. Substantially all of the Company's joint venture agreements contain rights of first refusal, buy-sell provisions, exit rights, default dilution remedies and/or other break up provisions or remedies which are customary in real estate joint venture agreements and which may, positively or negatively, affect the ultimate realization of cash flow and/or capital or liquidation proceeds.
- (b) Economic ownership represents the allocation of cash flow to the Company, except as noted below. In cases where the Company receives a current cash distribution greater than its legal ownership percentage due to a capital account greater than its legal ownership percentage, only the legal ownership percentage is shown in this column. The Company's economic ownership of these properties may fluctuate based on a number of factors, including mortgage refinancings, partnership capital contributions and distributions, and proceeds and gains or losses from asset sales, and the matters set forth in the preceding paragraph.
- (c) Includes GLA attributable to anchors (whether owned or non-owned) and mall and freestanding stores.
- (d) These Centers have a former Sears store which is owned by MS Portfolio LLC, see footnote (i) below. The GLA of the former Sears store, or tenant replacing the former Sears store, at the five Centers indicated with footnote (d) in the table above is included in Total GLA at the center level. The GLA for the former Sears store at these five Centers plus the GLA of the former Sears store at two wholly owned Centers, Danbury Fair Mall and Vintage Faire Mall, are also aggregated into the 795,000 square feet in the MS Portfolio LLC above.
- (e) The joint venture entity was formed in September 2009. Upon liquidation of the partnership, distributions are made in the following order: to the third-party partner until it receives a 13% internal rate of return on and of its aggregate unreturned capital contributions; to the Company until it receives a 13% internal rate of return on and of its aggregate contributions; and, thereafter, pro rata 35% to the third-party partner and 65% to the Company.
- (f) On December 10, 2020, the Company made a loan (the Partnership Loan) to the 50/50 joint venture that owns Fashion District Philadelphia to fund the entirety of a \$100 million repayment to reduce the mortgage loan on Fashion District Philadelphia from \$301 million to \$201 million. Pursuant to

the joint venture partnership agreement, the Partnership Loan plus 15% accrued interest must first be repaid prior to the resumption of 50/50 cash distributions to the Company and its joint venture partner. The principal balance of the Partnership Loan at March 31, 2022 was \$118.8 million.

- (g) Construction is underway to convert former regional town center Westside Pavilion, which closed in January 2019, into an approximately 584,000 square foot Class A creative office campus called One Westside leased solely to Google, while maintaining approximately 96,000 square feet of adjacent entertainment and retail space at 10850 Pico Boulevard. The Company contributed the existing buildings and land valued at \$190.0 million to the joint venture on August 31, 2018. Refer to the Development and Redevelopment Pipeline Forecast for more details.
- (h) On March 29, 2021, the Company sold the former Paradise Valley Mall for \$100 million to a newly formed joint venture and retained a 5% joint venture interest. Construction started in Summer 2021 on the first phase of a multi-phase, multi-year project to convert this former regional town center Paradise Valley Mall into a mixed-use development with high-end grocery, restaurants, multi-family residences, offices, retail shops and other elements on the 92-acre site. The existing Costco and JC Penney stores currently remain open, while all of the other stores at the property have closed.
- (i) On April 30, 2015, Sears Holdings Corporation ("Sears") and the Company announced that they had formed a joint venture, MS Portfolio LLC. Sears contributed nine stores (located at Arrowhead Towne Center, Chandler Fashion Center, Danbury Fair Mall, Deptford Mall, Freehold Raceway Mall, Los Cerritos Center, South Plains Mall, Vintage Faire Mall and Washington Square) to the joint venture and the Company contributed \$150 million in cash to the joint venture. On July 7, 2015, Sears assigned its ownership interest in MS Portfolio LLC to Seritage MS Holdings LLC. On December 31, 2020, the Company traded its 50% interest in the former Sears parcel at Arrowhead Towne Center for its partner's 50% interest in the former Sears parcel at South Plains Mall, such that the Company now owns 100% of the former Sears parcel at South Plains Mall. The Company expects to create additional value through re-leasing the former Sears boxes. For example, Primark has leased space in portions of the Sears stores at Danbury Fair Mall and Freehold Raceway Mall. Refer to the Development and Redevelopment Pipeline Forecast for details of the Former Sears Redevelopments at these properties.

(a) The Company's pro rata share of debt represents (i) consolidated debt, minus the Company's partners' share of the amount from consolidated joint ventures (calculated based upon the partners' percentage ownership interest); plus (ii) the Company's share of debt from unconsolidated joint ventures (calculated based upon the Company's percentage ownership interest). Management believes that this measure provides useful information to investors regarding the Company's financial condition because it includes the Company's share of debt from unconsolidated joint ventures and, for consolidated debt, excludes the Company's partners' share from consolidated joint ventures, in each case presented on the same basis. The Company has several significant joint ventures and presenting its pro rata share of debt in this manner can help investors better understand the Company's financial condition after taking into account the Company's economic interest in these joint ventures. The Company's pro rata share of debt should not be considered as a substitute to the Company's total debt determined in accordance with GAAP or any other GAAP financial measures and should only be considered together with and as a supplement to the Company's financial information prepared in accordance with GAAP.
