#### Notes to Unaudited Pro Rata Statement of Operations

- (1) This represents the non-owned portion of consolidated joint ventures.
- (2) This represents the Company's pro rata share of unconsolidated joint ventures.
- (3) The Company uses FFO in addition to net income to report its operating and financial results and considers FFO and FFO-diluted as supplemental measures for the real estate industry and a supplement to Generally Accepted Accounting Principles ("GAAP") measures. The National Association of Real Estate Investment Trusts ("NAREIT") defines FFO as net income (loss) (computed in accordance with GAAP), excluding gains (or losses) from extraordinary items and sales of depreciated operating properties, plus real estate related depreciation and amortization, impairment write-downs of real estate and write-downs of investments in an affiliate where the write-downs have been driven by a decrease in the value of real estate held by the affiliate and after adjustments for unconsolidated joint ventures. Adjustments for unconsolidated joint ventures are calculated to reflect FFO on the same basis.

FFO and FFO on a diluted basis are useful to investors in comparing operating and financial results between periods. This is especially true since FFO excludes real estate depreciation and amortization, as the Company believes real estate values fluctuate based on market conditions rather than depreciating in value ratably on a straight-line basis over time. The Company believes that such a presentation also provides investors with a more meaningful measure of its operating results in comparison to the operating results of other REITs. The Company believes that FFO on a diluted basis is a measure investors find most useful in measuring the dilutive impact of outstanding convertible securities. The Company further believes that FFO does not represent cash flow from operations as defined by GAAP, should not be considered as an alternative to net income (loss) as defined by GAAP, and is not indicative of cash available to fund all cash flow needs. The Company also cautions that FFO, as presented, may not be comparable to similarly titled measures reported by other REITs.

Management compensates for the limitations of FFO by providing investors with financial statements prepared according to GAAP, along with a detailed discussion of FFO and a reconciliation of FFO and FFO-diluted to net income attributable to the Company. Management believes that to further understand the Company's performance, FFO should be compared with the Company's reported net income and considered in addition to cash flows in accordance with GAAP, as presented in the Company's consolidated financial statements.

Footnotes

- cs Sales are based on reports by retailers leasing mall and freestanding stores for the trailing 12 months for tenants which have occupied such stores for a minimum of 12 months. The percentage of Portfolio 2016 Forecast Pro Rata Real Estate NOI is based on guidance provided on August 1, 2016, see page 9. Real Estate NOI excludes straight-line and above/below market (d) adjustments to minimum rents. Real Estate NOI also does not reflect REIT expenses and Management Company revenues and expenses. See the Company's forward-looking statements disclosure on page 1 for factors that may affect the information provided in this column. These assets are under redevelopment including demolition and reconfiguration of the Centers and tenant spaces, accordingly the Sales per square foot and Occupancy during the periods of

- (a) This column reflects the Company's legal ownership in the listed properties as of June 30, 2016. Legal ownership may, at times, not equal the Company's economic interest in the listed properties because of various provisions in certain joint venture agreements regarding distributions of cash flow based on capital account balances, allocations of profits and losses and payments of preferred returns. As a result, the Company's actual economic interest (as distinct from its legal ownership interest) in certain of the properties could fluctuate from time to time and may not wholly align with its legal ownership interests. Substantially all of the Company's joint venture agreements contain rights of first refusal, buy-sell provisions, exit rights, default dilution remedies and/or other break up provisions or remedies which are customary in real estate joint venture agreements and which may, positively or negatively, affect the ultimate realization of cash flow and/or capital or liquidation proceeds.
- (b) Economic ownership represents the allocation of cash flow to the Company as of June 30, 2016, except as noted below. In cases where the Company receives a current cash distribution greater than its legal ownership percentage

#### Joint Venture List

due to a capital account greater than its legal ownership percentage, only the legal ownership percentage is shown in this column. The Company's economic ownership of these properties may fluctuate based on a number of factors, including mortgage refinancings, partnership capital contributions and distributions, and proceeds and gains or losses from asset sales, and the matters set forth in the preceding paragraph.

- (c) Includes GLA attributable to anchors (whether owned or non-owned) and mall and freestanding stores as of June 30, 2016.
- (d) The joint venture entity was formed in September 2009. Upon liquidation of the partnership, distributions are made in the following order: to the third-party partner until it receives a 13% internal rate of return on and of its aggregate unreturned capital contributions; to the Company until it receives a 13% internal rate of return on and of its aggregate unreturned capital contributions; and, thereafter, pro rata 35% to the third-party partner and 65% to the Company.
- (e) Columns 1 and 2 reflect the Company's indirect ownership interest in the property owner. The Company and a third-party partner are each members of a joint venture (the "MW Joint Venture") which, in turn, is a member in the joint venture that owns the property. Cash flow distributions for the MW Joint Venture are made in accordance with the members' relative capital accounts until the members have received distributions equal to their capital accounts, and thereafter in accordance with the members' relative legal ownership percentages. In addition, the Company has executed a joint and several guaranty of the mortgage for the property with its third-party partner. The Company may incur liabilities under such guaranty greater than its legal ownership percentage.
- (f) Columns 1 and 2 reflect the Company's total direct and indirect ownership interest in the property owner. The Company and a third-party partner are each members of a joint venture (the "MW Joint Venture") which, in turn, is a member in the joint venture with the Company that owns the property. Cash flow distributions for the MW Joint Venture are made in accordance with the members' relative capital accounts until the members have received distributions equal to their capital accounts, and thereafter in accordance with the members' relative legal ownership percentages.
- (g) On April 30, 2015 Sears Holdings Corporation ("Sears") and the Company announced that they had formed a joint venture, MS Portfolio LLC. Sears contributed nine stores (located at Arrowhead Towne Center, Chandler Fashion Center, Danbury Fair Mall, Deptford Mall, Freehold Raceway Mall, Los Cerritos Center, South Plains Mall, Vintage Faire Mall and Washington Square) to the joint venture and the Company contributed \$150 million in cash to the joint venture. The lease arrangements between Sears and the joint venture provide the ability to create additional value through recapturing certain space leased to Sears in these properties and re-leasing that space to third-party tenants. For example, Primark has leased space in portions of the Sears stores at Danbury Fair Mall and Freehold Raceway Mall. On July 7, 2015, Sears assigned its ownership interest in MS Portfolio LLC to Seritage MS Holdings LLC.
